## **Valley Company Initiates Procurement Solutions Division**

*June 27, 2007 – Visalia, CA* After more than one year of preparation, BioWorld Products, LLC inaugurated its new Procurement Solutions Division at a Kick-Off Rally today at the Women in Business conference in Los Angeles.

After numerous requests from customers nationwide, BioWorld teamed up with a major international supplier and now offers more than 600,000 commercial and industrial supply items.

“We are so excited about this new opportunity to provide solutions for government and business procurement. As a woman-owned business, this trade fair, the largest event of its kind in the country, seemed like the perfect place to showcase our new talents,” said Diane Barnes, President.

Founded in 1991, BioWorld Products has developed revolutionary ways to clean up oil spills and wastewater treatment plants, control algae and eliminate odors.
